

SQLSaturday #165

Precon w/ Kevin Kline - DB Config / Tuning

#165 | LINCOLN, NE

The Lincoln SQL Server User Group invites you to attend the SQLSaturday #165 Kevin Kline precon session, Friday October 5, 2012 from 8AM to 4PM!

Kevin Kline presents: ***Real World Database Config and Tuning***

This multi-module full day seminar covers the spectrum of best practices as they relate to database and application design and configuration, implementation, maintenance and performance tuning. With a special focus on IT organizations with large SQL Server deployments, MVP Kevin Kline will discuss:

- Bare metal tuning of server and disk configuration
- Benchmarking performance
- Physical machine versus virtual machine deployment
- DB conceptual design and normalization, to physical deployment of databases, indexing and partitioning
- Understanding SQL Server query performance
- Identifying performance bottlenecks and resolving performance issues
- Automating as much as possible so that life gets easier!

Where is the Precon?

- The Knolls Country Club, 2201 Old Cheney Rd, Lincoln NE, 68512

What does it cost?

- Early bird special - \$99 before September 15 (\$119 after)
- Lunch will be provided

Where can I learn more?
